5. ***Our business depends on our Promoter and senior management and our ability to attract and retain sales personnel. Any attrition rate of our senior management may affect our business growth.***

We believe that the experience of our Promoter and senior management has been critical to our success and business growth over the years. Their in-depth knowledge of the market and the business operations have ensured our growth in the business.

As a result, any loss of the services of our Promoter or any senior management could materially and adversely affect our business, financial condition and results of operations. The replacement of senior management may not be straightforward or achievable in a timely manner as they have years of knowledge and experience in this business, and we may be required to wait in definitely to fill positions until we find suitable candidates. Furthermore, attracting, hiring and retaining experienced and qualified senior management with years of experience in this business sector could require increasing compensation and benefits payable to such personnel, which could affect our operational costs and accordingly, our financial condition and results of operations. Our success is also dependent on our ability to attract, hire, train and retain experienced and skilled sales personnel, including sales personnel who speak local languages in the various regions in which we operate along with adequate and proper knowledge of the product. In the gems & jewellery industry, the level and quality of sales personnel and customer service are key competitive factors and an inability to recruit, train and retain suitably qualified and skilled sales personnel who maintain consistency in our standards of customer service and overall operations could adversely impact our reputation, business prospects and results of operations. We could encounter challenges in identifying, training and retaining sales personnel as the Indian jewellery industry is expected to experience significant growth in future years.

6. ***The Promoters and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.***

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders' approval. Our Promoters will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoters could conflict with the interests of our other

equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

7. *Our ability to retain the clients is heavily dependent upon various factors including our reputation and our ability to maintain a high level of service quality including our satisfactory performance for the customers. Any failure by us to retain or attract customers may impact its business and revenues.*

We believe our strong product reputation has helped us to attract and retain our customers. As a result, our reputation and perception of our products are critical to our business. Although, we believe that we as well as our customers have a dedicated and talented team that comprise of experienced personnel in our field of business. Our business heavily relies on our reputation as well as the quality and popularity of the service provided by us and our visibility and perception amongst customers. It is important that we retain the trust placed by our customers. We must also continue to attract more and increase the number of our customers at a consistent rate.

We attempt to retain our position by maintaining quality and by our ability to improve and add value to the performance of our customers in their respective areas. This requires constant upgradation of the methodology and technologies are adequately equipped. Further, we rely on a variety of advertising efforts tailored to target the customers. Failure to maintain and enhance our reputation or any actual or perceived reasons leading to reduction of benefits from our customers or any negative publicity against us may affect the retention of customers. Any failure by us to retain or attract customers may adversely impact our business and revenues.

8. *Our dependency on job workers for the performance of our operation may adversely affect our business.*

We are totally dependent on the job worker for the performance of our operation. We have not entered into written arrangements with any of these job workers, and there can be no assurance that these job workers will continue to be associated with us on reasonable terms, or at all. Although we work closely with these job workers, we do not exercise control over them, and our arrangements with these job workers could involve various risks, including potential interruptions to their operations for factor beyond their or our control, any significant adverse changes in their financial or business conditions, as well as low levels of output or efficiency.

9. *Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees.*

We believe that our industry faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Our Company has taken efforts to maintain a lower attrition among the labourers by facilitating them with various in-house facilities and benefits to our employees.

10. *We may be unable to maintain or establish arrangements with contract manufacturers and suppliers through whom we manufacture our products and procure raw materials, and may experience other disruptions or quality control risks in the operations of such parties.*

We manufacture our products through our network of contract manufacturers and procure raw materials through suppliers. We control the manufacturing process and the ultimate risk of the raw materials lies with us. However, our arrangements with these contract manufacturers and suppliers could involve various risks, including potential interruption to their operations for factors beyond their or our control, any significant adverse changes in their financial or business condition, as well as low levels of output,

quality or efficiency. Any disruption in the operations of these contract manufacturers or suppliers could have an adverse impact on our financial condition and results of operations.

In addition, while we exercise significant influence over the entire manufacturing process and undertake a number of quality control procedures to ensure we are selling only quality jewellery to our customers, including having all of our jewellery Bureau of Indian Standards (“BIS”), hallmarked and conducting sample tests on each new batch of products we receive from our contract manufacturers, there is no assurance that our quality control measures will be effective. If we receive negative publicity about the quality of our jewellery or our contract manufacturers receive negative publicity, our reputation, business and results of operations could be adversely affected.

11. If we are unable to continue to develop innovative, fashionable and popular designs, demand for our jewellery may decrease.

Our success depends largely on our ability to anticipate, gauge and respond to the changing consumer preferences and trends in a timely manner, while preserving and strengthening the perception and authenticity of our products. We must therefore continue to develop innovative and trend-setting jewellery designs that are different from our competitors. Market acceptance of new designs and products is subject to uncertainty and we cannot assure you that our efforts will be successful. The inability of new designs to gain market acceptance could adversely affect our business and financial condition.

12. Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

Theft, employee negligence or similar incidents

Our operations may be subject to incidents of theft or damage to inventory in transit, and otherwise. Our industry typically encounters some inventory loss on account of employee theft, shop lifting, robbery, vendor fraud and general administrative error. Till date we have not reported any instances of theft or fraud in the past and we have set up various state of the art security measures at every possible place, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition.

13. Inventories form a substantial part of our current assets and net worth. Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.

Our total inventory was ₹ 5,461.36 Lakhs against the total sales of ₹ 44,920.11 Lakhs for the Year ended on March 31, 2024 and ₹ 4,362.99 Lakhs against the total sales of ₹ 44,659.20 Lakhs for the year ended on March 31, 2023. We need inventory of jewellery of antique and running designs for our business. Our

results of operations are dependent on our ability to effectively manage our inventory. We must be able to accurately estimate customer demand and supply requirements and manufacture new Jewellery to effectively manage our inventory. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of Jewellery or an accumulation of excess inventory. Further, if we fail to sell the inventory, manufactured by us, we may incur loss pertaining to the labour charges of such unsold materials and will also result in blockage of working capital thereby incurring loss of interest, which would have an adverse impact on our income as well as cash flows.

14. We are subject to government regulation and if we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business and results of operations may be adversely affected.

Our business is subject to applicable government regulations and legislations and we require certain statutory and regulatory approvals, licenses, registrations and permissions for operating our business. These permits, licenses and approvals may also be tied to numerous conditions and terms, obtaining some of which may be time consuming and may incur high cost. We cannot assure you that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, which may lead to cancellation, revocation or suspension of relevant permits, licenses, registrations and approvals. There is no assurance in the future that the permits, licenses, registrations and approvals applied for or held by us will be issued, approved or renewed in a prompt manner, or at all, under applicable laws. Further, applications for approvals, licenses, registrations and permissions for operating our business need to be made within certain timeframes and are often subject to the discretion of relevant authorities. If we are unable to make applications or renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner, at a reasonable cost, or at all or in the event we fail to comply with the terms and conditions therein, it could materially and adversely affect our financial condition and results of operations, including cancellation, revocation or suspension of relevant permits, licenses, registrations and approvals and the imposition of penalties by relevant authorities.

15. We may not be successful in implementing our business strategies. The success of our business depends substantially on our ability to implement our business strategies effectively or at all.

Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

16. We do not register our jewellery designs under the Designs Act, 2000 and we may lose income if our designs are duplicated by competitors.

We develop designs for most of our jewellery products which we manufacture based on the designs which are developed by us. We select the jewellery designs from the designs made by our designing team which are largely based on the market trends. Due to the competitive nature of the jewellery markets in which we operate, innovative designs remain the key differentiators, which therefore possesses short life span. As a result of jewellery designs which are modified and changed on a frequent basis, we do not register these designs under the Designs Act, 2000. Our designs are therefore not protected under the Designs Act, 2000 and if competitors copy our designs it could lead to loss of income, which could adversely affect our reputation and our results of operations. Even though, we have passing off right, this could lead to lengthy litigation which could materially result in loss of reputation and our results of operations.

17. We have not been able to locate certain records of the educational qualifications and professional experience of certain of our Directors/promoters and have relied on declarations/undertakings furnished by such individuals for certain details of their profiles, as disclosed in the section “Our Management”.

We do not have all the documents evidencing the biographies of our Directors, Promoters as disclosed in “Our Management” section of this letter of offer. We and the Lead Manager (LM) were not able to verify details pertaining to the following:

- Educational qualifications of our Promoters/Directors Amrit J. Shah, Jawanmal M. Shah, & Sangeeta A. Shah, Nirali Shah, Mitwa Shah, Hardik Makwana and;
- Certain aspects of the professional experience of our Promoters, Amrit J. Shah and Jawanmal M. Shah.

Accordingly, reliance has been placed on declarations/undertakings furnished by these Promoters/Director to the LM to disclose details of their educational qualifications and professional experience in this letter of offer. We and the LM have been unable to independently verify such information prior to its inclusion in this letter of offer.

18. Orders placed by customers may be delayed, modified, cancelled or not fully paid for, which may have an adverse effect on our business, financial condition and thereby on our results of operations.

We may encounter predicaments in executing the orders placed by our customer or executing it on a timely basis. Moreover, there are factors which may be beyond our control or in the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, which may result in the postponement of executing or delivering of the necessary product(s) or cause its cancellation. Further, even though we execute orders as placed by our customers, the order could be cancelled or there could be any changes in delivery of the products. Accordingly, it is difficult to predict with certainty if, when and to what extent the delivery of the orders placed will be made. Failure to deliver our orders on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our revenue, cost of operation and thereby our business functioning.

19. We have not registered the trademarks used by us for our business and our inability to obtain or maintain these registrations may adversely affect our competitive business position. Our inability to protect or use our intellectual property rights may adversely affect our business.

We have not applied for the registration of our logo “”. The registration of any trademark is a time consuming process, and there can be no assurance that any such registration will be granted as and when applied. In the absence of such registration, competitors or other companies may challenge the validity or scope of our intellectual property. These trademarks are integral to our business, and the loss of any of these intellectual property rights could have a material adverse effect on our business. Further, if any of our unregistered trademarks are registered in favour of a third party, we may not be able to claim ownership or make use of such trademarks and consequently, we may be unable to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities. Our inability to obtain or maintain these registrations may adversely affect our competitive business position. This may affect our brand value and consequently our business.

20. Our Company had negative cash flow during recent fiscal years; details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

(₹ in Lakhs)

Particulars for the period ended on March 31,	2024	2023	2022
---	------	------	------

Net Cash from (used in) Operating activities	(1,376.98)	(1,948.51)	2,661.55
Net Cash from (used in) Investing activities	(409.67)	(21.85)	771.53
Net Cash from (used in) Financing activities	1,658.03	2,159.72	(3,322.27)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations.

For further details please refer to the section titled '*Financial Information*' and '*Management's Discussion and Analysis of Financial Condition and Results of Operations*' beginning on pages 100 and 105 respectively of this Letter of Offer.

- 21. *In the past, there have been instances of delayed or erroneous filing of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 to RoC by our Company.***

In the past, there have been certain instances of delay and/or non-filing of statutory forms as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 with the RoC, which have been subsequently filed by payment of an additional fee as specified by RoC by our Company. The occurrence of instances of delayed or erroneous filings in future may impact our results of operations and financial position.

- 22. *Our business requires significant working capitals. If we are unable to generate sufficient cash flows to allow us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.***

Our business requires significant amount of working capital including fund requirement for payment for bulk purchases of various raw materials and product. Hence, major portion of our working capital is utilized towards debtors and inventory. The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables. However, if our management fails to manage our inventory or misjudges expected clients demand or shortage of materials/ products or an accumulation of excess inventory or accurately evaluate the credit worthiness of our clients, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

For Further details regarding working capital requirement, please refer to the Chapter "*Objects of the Issue*" on page 59 of this Letter of Offer.

- 23. *Our business is partly dependent on factors affecting consumer spending habit that are out of our control.***

Jewellery purchases are discretionary and are often considered as luxury purchase. Consequently, our business is sensitive to a number of factors that influence consumer spending habit which includes general economic conditions, consumer confidence in future economic conditions, recession and fears of recession, consumer debt and unstable consumer income, conditions in the housing market, interest rates and inflation. Any fall in demand or a decline in the consumer spending habit could adversely affect our business, financial condition and results of operations.

24. *Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

For our business operations, our results of operations are dependent on our ability to effectively manage our inventory, timely delivery of our finished products from our job workers. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements, approximately delivery time of our finished goods and purchase new raw material/ inventory accordingly. If our management has misjudged the expected customer demand it could adversely impact the results by causing either a shortage of merchandise or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture through our job workers or purchase, we may be required to recycle our inventory, which would have an adverse impact on our income and cash flows.

25. *If we are unable to collect our receivables from our clients, our results of operations and cash flows could be adversely affected.*

Recovery of our receivables and timely collection of client balances depends on our ability to complete our commitments and bill and collect our contracted revenues. If we are unable to meet our requirements, we might experience delays in collection of and/or be unable to collect our client balances, and if this occurs, our results of operations and cash flows could be adversely affected. In addition, if we experience an increase in the time to bill and collect for our services, our cash flows could be adversely affected.

We may be subject to working capital shortages due to delays or defaults in payments by clients. If clients defaults in their payments in due time to which we have devoted significant resources it could have a material adverse effect on our business, financial condition and results of operations and could cause the price of our Equity Shares to decline.

26. *Any fluctuation in price and supply of gold and silver, which is a major raw material for the manufacture of our products, could adversely impact our income. Gold and silver is the primary raw materials for our products.*

Price of gold and silver is volatile in nature and is linked to the international commodity indices such as Rogers International Commodity Index. Although we source gold and silver wherein we sell our products on an unfixed basis, any increase in the prices of gold and silver shall result in the consequent increase in the price of our products. Such increase in price of our products may adversely affect their demand. However, particularly sharp increases and volatility in commodity costs usually result in a time lag before increased commodity costs are fully reflected in retail prices. Further, any increase in commodity cost is likely to impact demand for our products during high price periods. There is no certainty that such price increase will be sustainable and downward pressure on gross margins and income may occur.

27. *We are dependent upon third parties for supply of our raw material and any disruption in their supply could disrupt our business and adversely affect our financial results.*

Gold bar is the primary raw material used in the manufacturing process, contributes significantly to our total raw material cost. We do not enter into any long-term agreements with our suppliers and our arrangements with them are generally on short term basis. Hence, there is no assurance that in future also we will be able to source such raw material at commercially acceptable prices, or at all. This could affect our ability to fulfil our supply commitments or to fulfil them in an economic manner, which will have an adverse effect on our business, financial condition and results of operations.

28. *Potential conflict of interest of the directors of the Issuer if involved with one or more ventures which are in the same line of activity or business as that of the Issuer.*

The main business object / activities of firm permit it to undertake similar business to that of our business, which may create a potential conflict of interest and which in turn, may have an implication on our operations and profits. Conflicts of interests may arise in allocating business opportunities between Our Company in circumstances where our respective interests diverge.

29. *Interests of the directors or key management personnel of the Issuer, other than reimbursement of expenses incurred or normal remuneration or benefits. Any portion of the issue proceeds that is proposed to be paid by the Issuer to the directors or key managerial personnel of the Issuer.*

Certain of our Directors and Key Management Personnel may be regarded as interested to the extent of, among other things, remuneration, sitting fee, commission, performance bonus, long term incentives, and other perquisites.

30. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.*

Modernization and technology up-gradation is essential to provide better products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

31. *Our Company has entered into certain related party transactions in the past and may continue to do so in the future.*

Our Company has entered into certain transactions with our related parties including Directors and their relatives. While we believe that all such related party transactions that we have entered into are conducted on an arms' length basis in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions and all related party transactions that we may enter are subject to Board or shareholder approval, as necessary under the Companies Act and the SEBI LODR Regulations, in the interest of the Company and its minority shareholders and in compliance with the LODR Regulations, we cannot assure you that these arrangements in the future, or any future related party transactions that we may enter into, individually or in the aggregate, will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects. Further, any future transactions with our related parties could potentially involve conflicts of interest which may be detrimental to our Company. Additionally, there can be no assurance that any dispute that may arise between us and related parties will be resolved in our favour. There can be no assurance that our directors and executive officers will be able to address such conflicts of interests or others in the future.

For further information, please refer 'section titled '***Financial Information***' on Page 100.

32. *Our ability to pay dividends will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors.*

The amount of our future dividend payments, if any, will depend upon various factors such as our future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors. There can be no assurance that we shall have distributable funds or that we will declare dividends in the future. Additionally, the terms of any financing which we may seek in future, may contain restrictive covenants which may also affect some of the rights of our shareholders, including the payment of the dividend.

33. Our insurance coverage may not be sufficient or adequate in protecting us against all or certain operating hazards and from all or certain losses and this may have an adverse impact on the financial conditions of the business.

As on the date, our Company has availed of Jewellers Comprehensive Protection insurance coverage Policy insurance coverage - sookshma udyam suraksha policy schedule from Bajaj Allianz General Insurance Company Limited. We believe that the insurance coverage taken by us will protect our products/ business and from any damages or losses that we may suffer in the future. Further, our insurance coverage would be reasonably adequate to cover the normal risks associated with the operation of our businesses. However, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage, or successful assertion of one or more large claims against us for events for which we are not insured, or for which we did not obtain or maintain insurance, or which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, financial performance and cash flows could be adversely affected.

34. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

35. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

36. *We have not identified any alternate source of financing the ‘Objects of the Issue’. If we fail to mobilize resources as per our plans, our growth plans may be affected.*

We have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue which may delay in the implementation schedule and could adversely affect our growth plans. For further details of object of Issue and schedule of implementation please refer to the chapter titled ‘*Objects of the Issue*’ on page 59 of this Letter of Offer.

37. *The price of the Equity Shares may be highly volatile after the Issue.*

The price of the Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors including volatility in the Indian and global securities market, our operations and performance, performance of our competitors and perception in the market about investments in the our industry, adverse media reports on us or the industry, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalization and deregulation policies and significant developments in India's fiscal and environmental regulations. There can be no assurance that the prices at which the Equity Shares are initially traded will correspond to the prices at which the Equity Shares will trade in the market subsequently.

38. *As the Equity Shares of our Company are listed on the Stock Exchange, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations and comply with other SEBI Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.*

The Equity Shares of our Company are listed on Stock Exchanges, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI (LODR) Regulations, to the extent applicable, and have to adhere to and comply with other applicable Regulations framed by SEBI. Our Company endeavors to comply with all such obligations and reporting requirements, any non-compliance which might have been committed by us, may result into Stock Exchange and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and the rules and regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

39. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised, and may be subject to change based on various factors, some of which are beyond our control.*

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions, and have not been appraised by any bank or financial institution or another independent agency. Furthermore, in the absence of such independent appraisal, our funding requirements may be subject to change based on various factors which are beyond our control.

40. *We could face customer complaints or negative publicity with respect to our products or the industry in which we operate could adversely affect our business, financial condition and results of operations.*

Our business is dependent on the trust our customers have in the quality of our merchandize. Any negative publicity regarding our Company, our products or the jewellery industry generally could adversely affect our reputation and our results of operations. Customer preferences could be affected by a variety of issues including non-acceptance of diamonds from specific regions, non-promotion of jewellery by the fashion industry, and a decrease in the perceived value and customer satisfaction of the jewellery compared to its price.

Customer complaints or negative publicity about our customer service could diminish consumer confidence in, and the attractiveness of, our Company and brand and effect our sales and growth. We believe in providing quality services to our customers at all times. Any inability by us to properly manage or train our sales staff, employees and managerial personnel who handle customer complaints and disputes could compromise our ability to handle customer complaints effectively in the future. If we do not handle

customer complaints effectively, our reputation may suffer, and we may lose our customers' confidence, which could have a material adverse effect on our business, financial condition and results of operations.

41. *The future operating results are difficult to predict and may fluctuate or adversely vary from the past performance.*

The company's operating results may fluctuate or adversely vary from past performances in the future due to a number of factors, many of which are beyond the company's control. The results of operations during any financial year or from period to period may differ from one another or from the expected results operation. Its business, results of operations and financial condition may be adversely affected by, inter alia, a decrease in the growth and demand for the jewellery offer by the company or decrease in the demand gold and silver, and any strategic alliances which may subsequently become a liability or non-profitable. Due to various reasons including the above, the future performance may fluctuate or adversely vary from our past performances and may not be predictable.

42. *We have not commissioned an industry report for the disclosures made in the chapter titled "Industry Overview" and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us.*

Further, the industry data mentioned in this Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry-related disclosure in this Letter of Offer in this context.

ISSUE SPECIFIC RISKS

43. *SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021, October 01, 2021 and May 19, 2022 streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Letter of Offer.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021, October 01, 2021 and May 19, 2022, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, please refer the section titled '*Terms of the Issue*' beginning on page 130.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date;

or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

44. *Our company will not distribute the draft letter of offer, letter of offer and application form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Abridged Letter of Offer, Rights Entitlement Letter and Application Form (*the “Offering Materials/ Issue Materials”*) to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e- mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

45. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements.

46. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant’s decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the Rights to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants’ ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

47. *Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.*

Any future issuance of Equity Shares by our Company could dilute the investor's shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

48. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if STT has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. It is pertinent to note that pursuant to the Finance Bill, 2017, it has been proposed, that with effect from April 1, 2017, this exemption would only be available if the original acquisition of equity shares was chargeable to STT. The Central Government is expected to, however notify the transactions which would be exempt from the application of this new amendment. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to applicable short-term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption is provided under a treaty between India and the country of which the seller is resident, subject to the availability of certain documents. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. For more details, please refer to '*Statement of Tax Benefits*' beginning on page 65 of this Letter of Offer.

49. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchanges until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

50. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

- 51. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.**

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the section titled '*Objects of the Issue*' beginning on page 59. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

- 52. Investors will be subject to market risks until the Issue Shares credited to their demat accounts are listed and permitted to trade.**

Investors can start trading the Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Issue Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Issue Shares allocated to an Investor will be credited to the Investor's demat account or that trading in the Equity Shares will commence in a timely manner.

- 53. Investors will not have the option of getting the Allotment of Rights Equity Shares in physical form and the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.**

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of the Equity Shares and except the pending transfers). For details, refer the section titled '*Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form*' on page 130 of this Letter of Offer.

- 54. The entitlement of Equity Shares to be allotted to investors applying for Allotment in physical form, will be kept in abeyance.**

Investors will not have the option of getting the allotment of Equity Shares in physical form. The Equity Shares Allotted to the Applicants who do not have demat accounts or who have not specified their demat details, will be kept in abeyance till receipt of the details of the demat account of such Applicants. This further means that they will have no voting rights in respect of the Equity Shares. For details, see "*Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form*" on page 130 of the Letter of Offer.

- 55. *The Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Equity Shares until they provide details of their demat account and Equity Shares are transferred to such demat account from the demat suspense account thereafter.***

The Equity Shares will be credited to a demat suspense account to be opened by our Company, in case of Allotment in respect of resident Eligible Equity Shareholders holding Equity Shares in physical form and who have not provided the details of their demat account to the Registrar or our Company at least two Working Days prior to the Issue Closing Date. Such Eligible Equity Shareholders are required to send, amongst others, details of their demat accounts to our Company or the Registrar to enable our Company to transfer, after verification of the details of such demat account by the Registrar, the Equity Shares from the demat suspense account to the demat accounts of such Eligible Equity Shareholders. Unless and until such Eligible Equity Shareholders provide details of their demat account and the Equity Shares are transferred from demat suspense account to such demat accounts thereafter, they will have no voting rights in respect of Equity Shares. For details, see “*Terms of the Issue*” on page 130 of this Letter of Offer.

- 56. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) may lapse in case they fail to furnish the details of their demat account to the Registrar.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020 and May 6, 2020, read with SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020, SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021 and SEBI circular bearing reference number SEBI/HO/CFD/DIL2/CIR/P/2021/552 dated April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see “*Terms of the Issue*” on page 130 of this Letter of Offer. In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only.

EXTERNAL RISK FACTORS

- 57. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.***

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may have to incur costs or may be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

- 58. *Taxes and other levies imposed by the Government of India or other State Governments and any other statutory authorities, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.***

Taxes and other levies imposed by the Central or State Governments and any other statutory authorities in India that affect our industry include Custom duties (including anti-dumping duties, etc.) on imports of products, Goods and Service Tax and Direct Taxes.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

59. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

60. *Global economic, geo political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and geo political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

61. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

62. *The extent and reliability of Indian Infrastructure could adversely affect the Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt the Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt the Company's business operations, which could have an adverse effect on its results of operations and financial condition.

63. *Natural calamities could have a negative impact on the Indian economy and cause the Company's business to suffer.*

Our Country in the past has experienced natural calamities such as earthquakes, tsunami, floods etc. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

64. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect the Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

65. *The outbreak of Novel Coronavirus, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

The outbreak, or threatened outbreak, of any severe epidemic caused due to viruses (particularly the Novel Coronavirus) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease may also adversely affect the operations of our customers and suppliers, which could adversely affect our business, financial condition, and results of operations. The outbreak of Novel Coronavirus has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines, shelter in place orders, and shutdowns. These measures have impacted and may further impact our workforce and operations, the operations of our customers, and those of our respective vendors and suppliers. There is currently substantial medical uncertainty regarding Novel Coronavirus and no government-certified treatment or vaccine is available. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of Novel Coronavirus remain uncertain and could be severe. Our ability to meet our ongoing disclosure obligations might be adversely affected, despite our best efforts. If any of our employees were suspected of contracting Novel Coronavirus or any other epidemic disease, this could require us to quarantine some or all these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general.

The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of Novel Coronavirus will cause an economic slowdown and it is possible that it could cause a global recession. The spread of Novel Coronavirus has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events, and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed.

The extent to which the Novel Coronavirus further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken globally to contain the coronavirus or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. We are still assessing our business operations and system supports and the impact Novel Coronavirus may have on our results and financial condition, but there can be no assurance that this analysis will enable us to avoid part or all any impact from the spread of Novel Coronavirus or its consequences, including downturns in business sentiment generally or in our sector. The degree to which Novel Coronavirus impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, environmental harm, loss of life, injuries and impact the wellbeing of our people.

Further in case the lockdown is extended, it could result in muted economic growth or give rise to a recessionary economic scenario, in India and globally, which could adversely affect the business, prospects, results of operations and financial condition of our Company.

66. An outbreak of other infectious or virulent diseases, if uncontrolled, may have an adverse effect on our operations.

An outbreak of other infectious or virulent diseases, such as severe acute respiratory syndrome, the H1N1 virus, avian influenza (bird flu), the Zika virus or the Ebola virus, if uncontrolled, may have a material adverse effect on the economies of certain countries and our operations. If any of our employees or the employees of our suppliers and/or customers are infected with such diseases or if a significant portion of our workforce refuses to work for fear of contracting an infectious disease, our Company, our suppliers and/or our customers may be required to shut down operations for a period of time, and this could adversely affect our business, results of operations and financial condition.

GLOBAL ECONOMIC OUTLOOK

The global economy remains in a precarious state amid the protracted effects of the overlapping negative shocks of the pandemic, the Russian Federation’s invasion of Ukraine, and the sharp tightening of monetary policy to contain high inflation. The resilience that global economic activity exhibited earlier this year is expected to fade. Global growth is projected to slow significantly in the second half of this year, with weakness continuing in 2024.

After growing 3.1 percent last year, the global economy is set to slow substantially in 2023, to 2.1 percent, amid continued monetary policy tightening to rein in high inflation, before a tepid recovery in 2024, to 2.4 percent. Tight global financial conditions and subdued external demand are expected to weigh on growth across emerging market and developing economies (EMDEs). Growth is projected to diverge across EMDE regions this year and next. It is expected to pick up in 2023 in East Asia and Pacific (EAP) and Europe and Central Asia (ECA), as China’s reopening spurs a recovery and as growth prospects in several large economies improve.

The combination of slow growth, tightening financial conditions, and heavy indebtedness is likely to weaken investment and trigger corporate defaults. Further negative shocks—such as higher inflation, even tighter policy, financial stress, deeper weakness in major economies, or rising geopolitical tensions—could push the global economy into recession. In the near term, urgent global efforts are needed to mitigate the risks of global recession and debt distress in EMDEs.

The global jewelry market size was valued at USD 353.26 billion in 2023 and is expected to grow at a compound annual growth rate (CAGR) of 4.7% from 2024 to 2030. Increasing disposable income and innovative jewelry designs offered by manufacturers are expected to drive product demand. Changing lifestyles and perceptions of jewelry as a status symbol are expected to boost the growth of this market.

A vast client base makes it possible for manufacturers to cater to a large market and earn profits. The introduction of new designs and emerging fashion trends are attracting customers and manufacturers are leveraging this frequent change in fashion to design unique products to attract customers. Additionally, rising awareness about the authenticity of the metals and gems used in the jewellery pieces is driving the market. Manufacturers are not only adhering to authenticity and quality standards but also educating consumers through advertising campaigns. The jewellery market is also expected to witness significant growth via the online channel as major players are focusing on using their websites to announce product launches, sales, and other relevant information. However, rising e-commerce frauds and a lack of knowledge about the hallmarks on jewellery are expected to hinder market growth.

In terms of value, the market is segmented into five categories, namely necklaces, rings, earrings, bracelets, and others. Rings emerged as the largest segment in 2023, accounting for a revenue share of 33.8%. This segment is likely to retain its pole position throughout the forecast period to claim a market share of 34.5% by 2030.

The rising sales of rings worldwide are principally driven by the increasing demand for wedding rings, coupled with the growing preference for corporate dressing. A key trend that has been gripping the market in recent years is the rising sale of rings within the male consumer segment. This can be attributed to improvements in men’s jewellery designs and rising fashion awareness among men around the world.

The market for gold jewellery held the largest market share as the material is the most popular metal used in the making of all sorts of jewellery across the world. The segment was valued at USD 185.83 billion in 2022 and is expected to exhibit a CAGR of 4.9% during the forecast period to maintain its leading position during the forecast period.

Asia Pacific jewellery market accounted for a share of 59.9% of the global revenue in 2023. This whopping market share is mainly attributed to the high demand for jewellery from densely populated countries in the region including India and China, where gold is consumed on large scale. Jewellery market in China is anticipated to grow at a CAGR of 5.1% from 2024 to 2030, owing to the increasing spending power of the country's population.

INDIAN ECONOMIC OUTLOOK

India, the third-largest economy in the world in Purchasing Power Parity (PPP) terms and the fifth-largest in market exchange rates, has reinforced the country's belief in its economic resilience as it has withstood the internal and external challenges alike such as of mitigating external imbalances caused by the Russian-Ukraine conflict without losing growth momentum in the process. The Indian economy appears to have moved on addressing the challenges posed by the pandemic, staging a full recovery, ahead of many nations and positioning itself to ascend to the pre-pandemic growth path in Financial Year (FY) 2023-24.

India's recovery from the pandemic was relatively quick, and growth in the upcoming year will be supported by solid domestic demand and a pickup in capital investment. Incipient signs of a new private sector capital formation cycle are visible and more importantly, compensating for the private sector's caution in capital expenditure, the government raised capital expenditure substantially.

Gold Jewellery

The Indian jewellery market is traditionally dominated by gold jewellery. Gold jewellery purchases in India are not only limited to consumption, as is the case with fashion jewellery, but they do have a strong saving significance. This is more evident in rural communities where access, literacy, and acceptance of other financial savings instruments are low. These factors have resulted in gold being a major saving asset class. Cultural differences, religious and trust concerns, as well as other elements that influence jewellery purchases have all contributed to gold jewellery's significance.

Apart from gold jewellery, the other type of jewellery which is gaining traction is the studded ornaments segment. The key factor contributing to the growth of this segment is the younger population's preference for diamond studded gold jewellery, typically made with 14 or 18 carat gold rather than heavy 22 carat gold. India is one of the leading cutting and polishing centre for diamonds with support from government policies. India is deemed as hub for this industry because of low cost and availability of highly skilled labour. Due to its potential for growth and value addition, the government considers this segment as a focus area for exports. The industry has become highly sophisticated over the years with the use of hi-technology in different processes, especially, in planning, inclusion plotting, and laser sawing. Grading of polished diamonds, is an established practice – the 4Cs of cut, clarity, colour and carat are being the standard measure for assigning grade.

KEY CHALLENGES FOR JEWELLERY IN INDIA

- **Shortage of skilled labor:**

One of the key challenges for the industry to scale up their operations is the scarcity of trained people. To have access to a large talent pool, the supply of craftsmen/artisans that come through generations must be supplemented by new talents who have been professionally taught. Moreover, the industry's on-the-job training

strategy results in lengthier training times and gaps in the availability of skilled labour and standardization, particularly in the fragmented sector. This is compounded by infrastructural deficiencies, lower need for institution-trained personnel in the fragmented sector, and the industry's limited appeal to the younger generation of workers.

- **Short lived fashion and design preferences:**

Exporters do not have enough design development centres or the resources to constantly innovate new designs to keep up with the changing trends among international purchasers. In an era of high diamond, gold, and silver prices, global marketing necessitates changing fashion in the gems and jewellery segment. According to the market demand, manufacturers can produce specific types of gems and jewellery products. However, as a result of the changing trend, demand for certain types of products begin to decline and eventually ceases. The manufacturer's money is blocked in the older designs and this results in a pile-up of unsold stock.

- **Dependency on imports for raw materials:**

The availability of raw materials is crucial to the gems and jewellery business. In India, a large percentage of raw materials are imported, as the domestic supply is limited. The raw material is converted into finished goods that are sold in the domestic and international market.

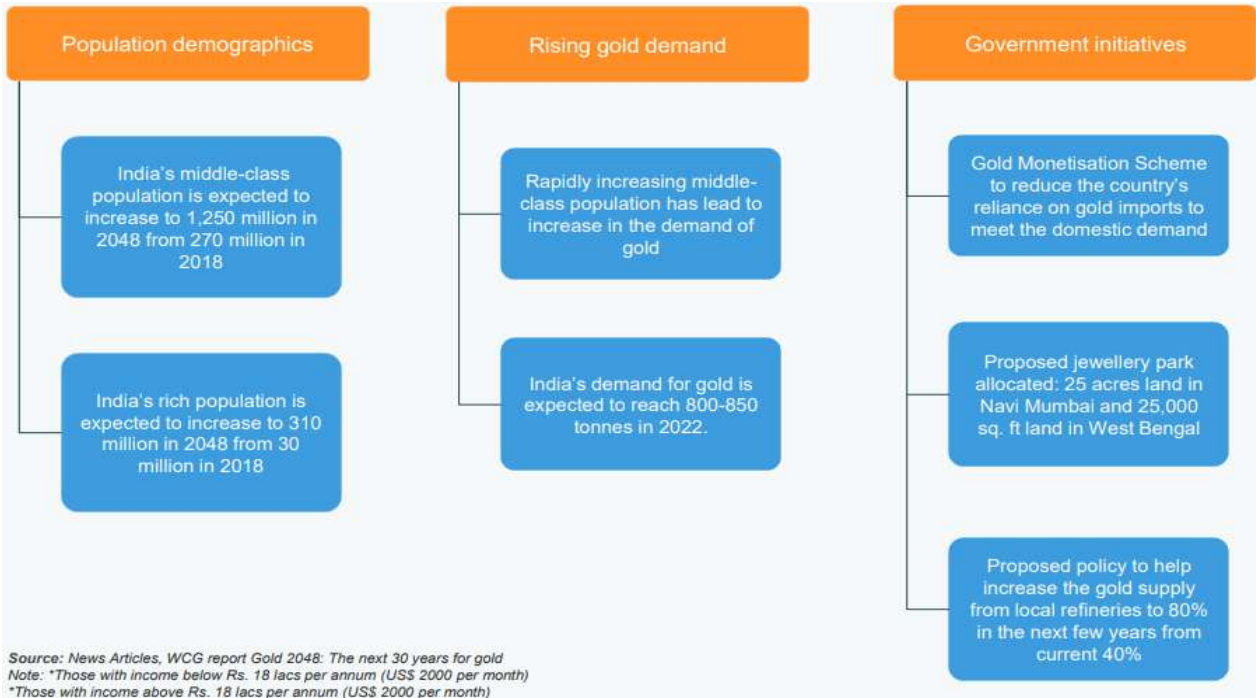

India is a net importer of raw gold and meets over 90% of its gold requirement through imports. The total gold imported (in value terms) by India was Rs. 3,441 billion in FY22 and Rs. 2,258 billion in 9M FY23. Gold is imported from Switzerland, South Africa, the United Arab Emirates, and Australia, among other countries. Raw pearls, precious and semi-precious stones, and other items are imported from Belgium, the United Kingdom, and Hong Kong.

Rough diamonds account for more than half of all G&J imports (66%). The total rough diamond imports i–April 2022 - January 2023 stands at Rs 1,118 billion in value terms and 1064.82 lakhs carats in volume terms. India imports rough diamonds primarily from Belgium, the United Kingdom, Israel, and the United Arab Emirates.

- **Impact of global slow-down**

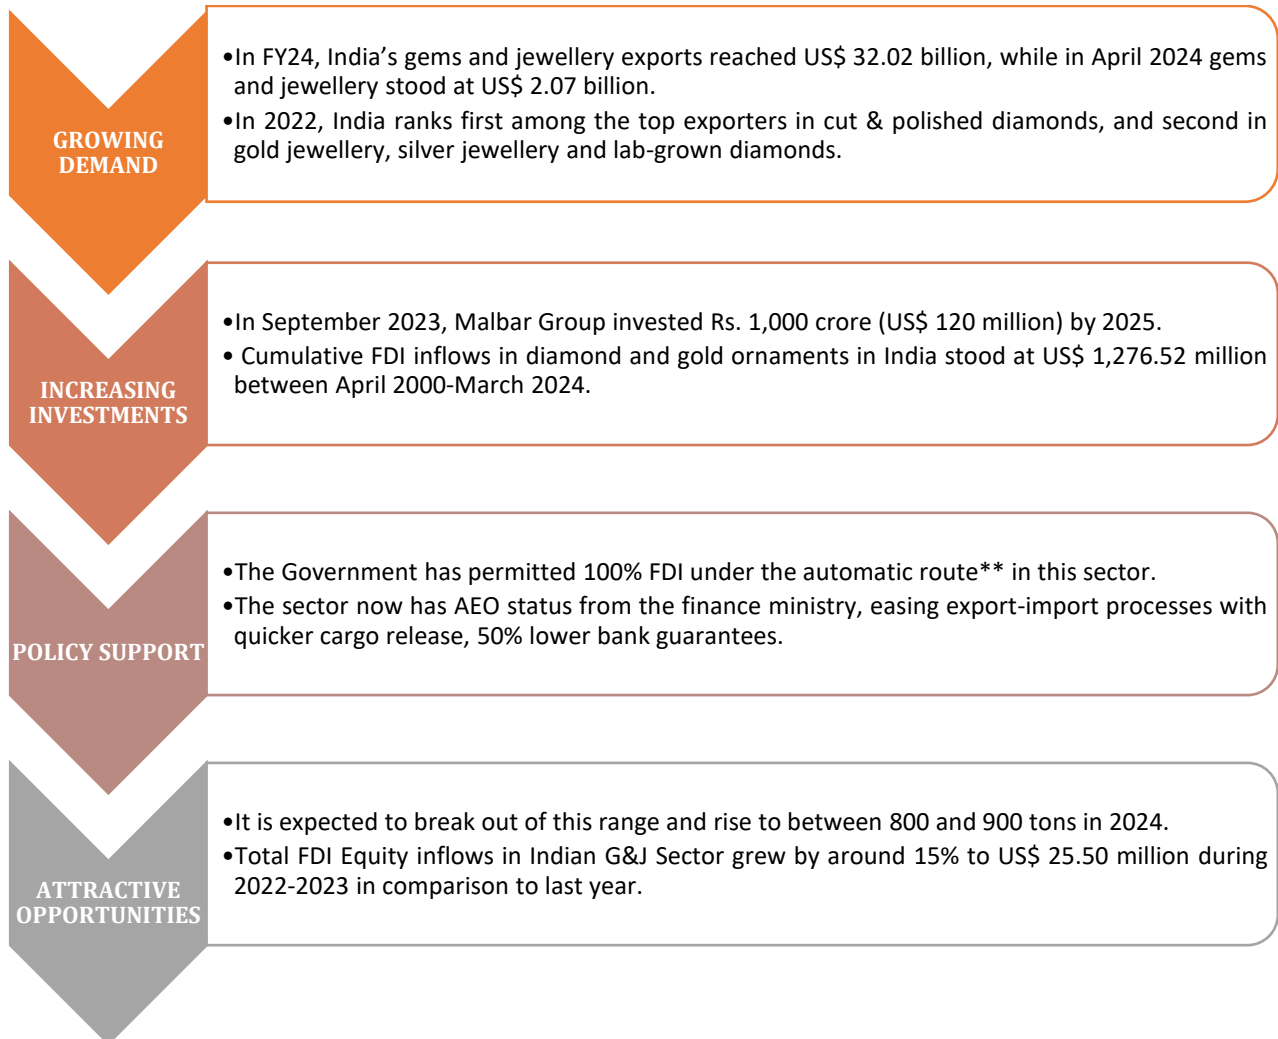

The United States, Hong Kong, UAE and Belgium are key export Destinations for Indian G&J industry. The United States accounted for about 37% to total exports of gems and jewellery in FY22. Persistent high inflation rates and slowdown in these economies will have an adverse impact on the gems and jewellery exports from India.

- India has signed an FTA with the UAE which will further boost exports and is expected to reach the target of US\$ 52 billion.
- The Government has reduced custom duty on cut and polished diamond and colored gemstones from 7.5% to 5% and NIL.
- Revised SEZ Act is also expected to boost gems and jewellery exports.
- In September 2021, Ms. Anupriya Patel, Minister of State for Commerce, and Industry said that reforms such as the revamped gold monetisation scheme, reduction in import duty of gold, hallmarking and others would help the industry grow. The market export target is US\$ 43.75 billion for 2021.

ROAD AHEAD

In the coming years, growth in the gems and jewellery sector would largely be contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Also, the relaxation of restrictions on gold import is likely to provide a fillip to the industry.

The improvement in availability along with the reintroduction of low-cost gold metal loans and likely stabilisation of gold prices at lower levels is also expected to drive volume growth for jewellers over the short to medium term. India has 450 organised jewellery manufacturers, importers & exporters and is the hub for jewellery manufacturing. These players have benefited greatly due to the increasing liberal policies by the government. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry. India's gems and jewellery industry is expected to reach US\$ 100 billion by 2027.

Competition

We operate in a highly competitive market and there are large numbers of players in organized sector as well as in unorganized sector. Majority of the Indian jewellery industry consists of unorganised players who have historically dominated a large part of the market, although their share of the market has been falling and is expected to continue to decline. We also face competition from organised jewellery companies who compete with us on a national, regional and local level. We have multiple competitors at various regional and local levels across India.

Health Safety and Environment

We are committed to complying with applicable health, safety and environmental regulations and other requirements in our operations. To help ensure effective implementation of our safety policies and practices, at the beginning of each project we identify potential material hazards, evaluate all material risks and institute, implement and monitor appropriate risk mitigation measures. We endeavour to minimize accidents at our project sites. Our Company equips labourers with safety equipment and material that covers them from the risk of potential health hazards. Project heads are principally responsible for ensuring that safety standards are met at project sites.

1 SIGNIFICANT ACCOUNTING POLICIES & NOTES ON FINANCIAL STATEMENT :

A Basis of Preparation of Restated Financial Statements

These Statements of the company have been prepared in accordance with Indian Accounting Standards (herein after referred to as "IndAS") as notified by the MCA under section 133 of the Companies Act, 2013 read with Companies Act (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act. The company is covered in the definition of Company other than Banking & NBFCs as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. Accordingly Division-II of the Schedule-III as specified under the Companies Act, 2013 has been applied for the preparation & presentation of the Restated Financial Statements.

The company adopted IndAS first time during F.Y. 2021-22.

All assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the company ascertains its operating cycle for the purpose of current/non-current classification of assets and liabilities.

B Use of Estimates

The preparation of the Financial Statements in conformity with IndAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amount of income and expenses during the period. Examples of such estimates includes future obligation with respect to employees benefits, income taxes, useful lives of fixed assets etc. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Difference between the actual results and estimates are recognised in the period in which the results are known / materialised.

C Property, Plant & Equipments and Intangible Assets

Transition to INDAS for presentation of Restated Financial Statements

On transition to Ind AS, the Company has elected to continue with the carrying value of all the items of property, plant and equipment recognized as at 01 April, 2020, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

Initial Measurement & Subsequent recognition

The Property, Plant and Equipments & Intangible Assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalised until such assets are not put to use. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition and installation of the concerned assets and are further adjusted by the amount of input tax credit availed wherever applicable. Subsequent costs are included in asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Company and the cost of item can be measured reliably. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Derecognition

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

D Depreciation and Amortisation

Depreciation on Property, Plant and Equipments is provided on the "Written Down Value method" as prescribed under Schedule -II of Companies Act'2013 over the useful life of assets estimated by the Management. Depreciation for assets purchased/ sold during a period is proportionately charged.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

E Cash and cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

F Provision For Current And Deferred Tax

Current Tax: Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax: is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

G Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets:

The Company classifies its financial assets at Fair value through Other Comprehensive Income (FVOCI) or Fair value through Profit & Loss (FVTPL). The classification is based upon two tests namely, Business Model Test (BMT) and Contractual Cash Flow Test (CCFT).

BMT: where entity's objective is to hold assets for collecting contractual cash flows.

CCFT: Where contractual cash flows are solely payment of principal and interest on a specified due dates.

Measurement & Recognition of Financial Assets

Investment in Equity Instrument

The company has invested in equity instruments of both listed entities and other unlisted or private companies. These investments are carried at Fair Value Through Other Comprehensive Income (FVTOCI). As a result, any changes in the fair value of these instruments are reflected in Other Comprehensive Income (OCI), except for dividends. Even after the sale of an investment, there is no recycling of the amounts previously recognized in OCI. However, the company has the option to transfer the cumulative gain or loss within the equity section.

Investment in Mutual Funds

All investments in Mutual funds instruments classified under financial assets are initially measured at fair value. The Company opted to recognise mutual funds through OCI.

Loans & Advances

The company extended loans and advances to both related and unrelated parties. To ensure proper classification of these financial assets, the Business Model and Contractual Cash Flow tests must be met. However, the loans and advances did not pass the Contractual Cash Flow test (CCFT), leading the company to classify them at Fair Value Through Profit & Loss (FVTPL).

Derecognition

Financial assets are derecognized (removed from the company's statement of financial position) primarily when:

1. The rights to receive cash flows from the asset have expired, or
2. The company has transferred its rights to receive cash flows to a third party under a "pass through" arrangement and either:
 - a) The company transferred the rights to receive cash flows from the financial asset, or
 - b) The company retained the contractual right to receive the cash flows but assumes the obligation to pay them to one or more recipients.

If the company has transferred substantially all the risks and rewards of ownership of the financial assets, the asset is derecognized. If not, the asset is not derecognized. If the company neither transferred a financial asset nor retains substantially all risks and rewards of ownership, the financial asset is derecognized if the company has not retained control of it. If the company retains control, the asset continues to be recognized to the extent of its continuing involvement in the financial asset.

Impairment

The Company applies the expected credit loss model for recognizing impairment loss on financial assets measured at amortized cost, other contractual right to receive cash or other financial assets not designated at fair value through profit or loss. The loss allowance for a financial instrument is equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal 12-month expected credit losses. 12-month expected credit losses are portion of the lifetime expected credit losses and represent the lifetime cash shortfalls that will result if the default occurs within 12 months after the reporting date. Since during the period(s) the company have receivables only from Credit worthy Entities the company is not exposed to credit risk and hence the company has not recognized the ECL. For trade receivables or any contractual right to receive cash or another financial asset that results from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses. The Company has used a practical expedient permitted by Ind AS 109 and determines the expected credit loss allowance based on a provision matrix which takes into account historical credit loss experience and adjusted for forward looking information. In compliance with Ind AS 109, the company has evaluated and measured its Expected Credit Loss for impairment loss on financial assets. As of the review period, no such expected loss has been recognized.

(II) Financial Liabilities:

Recognition & Measurements

In accordance with the accounting standards, financial liabilities are initially recorded at their fair value and are subsequently measured based on either the Fair Value Through Profit & Loss (FVTPL) method or at amortized cost. The financial liabilities of the company include trade payables, short-term borrowing, and other financial liabilities. For the purpose of the Restated Financial Statements, all these liabilities are measured at amortized cost.

Derecognition

A financial liability is derecognized from the company's statement of financial position when the obligation under the liability is settled, canceled, or reaches its maturity date. If an existing financial liability is replaced by another liability from the same lender but with significantly different terms, or if the terms of the existing liability are substantially modified, this exchange or modification is considered as the derecognition of the original liability and the recognition of a new liability.

Any difference between the carrying amounts of the original liability and the newly recognized liability is recorded in the statement of profit and loss.

H Current Assets, Loans & Advances

In the opinion of the Board and to the best of its knowledge and belief the value on realisation of current assets in the ordinary course of business would not be less than the amount at which they are stated in the Balance Sheet and repayable on demand.

I Revenue Recognition

- (a) The company generally follows the mercantile system of accounting and recognizes Income & Expenditure on accrual basis.
- (b) Revenue is recognised to the extent that it is possible that, the economic benefits will flow to the company and the revenue can be reliably estimated and collectability is reasonably assured.
- (c) Revenue from sale of goods and services are recognised when control of the products being sold is transferred to our customer and when there are no longer any unfulfilled obligations. The performance obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.
- (d) Revenue is measured on the basis of sale price, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the Government such as goods and service tax etc. Professional experience is used to estimate the provision for such discounts and rebates. Revenue is only recognized to the extent that it is highly probable a significant reversal will not occur.
- (e) Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “*automatic route*”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “*government route*”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the consolidated FDI Policy Circular of 2020 (***‘FDI Circular 2020’***), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

The Lead Manager to the Issue and our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company and the Lead Manager to the Issue are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Letter of Offer.
